

Investing in staff training will give rewards well into the future

– *Training solutions from Sercon!*

Our practical courses provide an excellent range of training in instrumentation/application know how, first line maintenance, ion optics rebuild/refurbishment and much more.

They are useful as introductions and refreshers, no matter what level of experience you have you will have the full experience of all the Sercon staff. From applications, design right through to build we are all here to give you the benefit of our experience.

For more information on how we can support you and your instrumentation, please contact sales@sercongroup.com
